(reservations recommended: [41 22 311 08 88](#))

The NeuroBureau and OHBM Student & Postdoc SIG host this annual event, with this year's gala theme being ***"Open Science and Data Sharing"***. The party commemorates the 7th anniversary of the 1000 Functional Connectomes Project, which has been instrumental in propelling the brain research community. Additionally, every year a Brain-Art competition is held, and this evening serves as the pinnacle for those great efforts, where the winners of the 2016 Brain-Art competition will be announced.
