

OHBM 2017 Poster Guidelines

The following guidelines are designed to assist in your preparation for your poster presentation at the 23rd Annual Meeting of the Organization for Human Brain Mapping in Vancouver, Canada.

Poster Presentation Information

Poster Numbers #1000-2224 (MT)

- Display Days: Your poster should be displayed on your assigned poster board on both Monday and Tuesday
- Set-Up Time: Please set-up your poster from 8:00 – 9:00 am on Monday morning ONLY. **Posters placed before this time, will be removed.**
- Poster Stand-By Times:
 - ➔ Even numbered posters between #1000-2224 will stand-by and present their poster on Monday, June 27 from 12:45 – 14:45.
 - ➔ Odd numbered posters between #1001-2223 will stand-by and present their poster on Tuesday, June 28 from 12:45 – 14:45.
- Poster Reception: All Monday and Tuesday poster presenters will have a poster reception on Tuesday, June 27 from 17:00 – 18:30. You may stand by your poster during this time.
- Poster Teardown: Monday and Tuesday presenters should remove their posters IMMEDIATELY after the poster reception on Tuesday night at 18:30. **IMPORTANT! Posters not removed by the end of the posted teardown time will be recycled.**

Poster Numbers #3000-4260 (WTh)

- Display Days: Your poster should be displayed on your assigned poster board on both Wednesday and Thursday
- Set-Up Time: Please set-up your poster from 8:00 – 9:00 am on Wednesday morning. **Posters placed before this time, will be removed.**
- Poster Stand-By Times:
 - ➔ Even numbered posters between #3000-4460 will stand-by and present their poster on Wednesday, June 28 from 12:45 – 14:45.
 - ➔ Odd numbered posters between #3001-4461 will stand-by and present their poster on Thursday, June 29 from 12:45 – 14:45.
- Poster Reception: All Wednesday and Thursday poster presenters will have a poster reception on Thursday, June 29 from 16:00 – 17:30. You may stand by your poster during this time.
- Poster Teardown: Wednesday and Thursday presenters should remove their posters IMMEDIATELY after the poster reception on Thursday at 17:30. **IMPORTANT! Posters not removed by the end of the posted teardown time will be recycled.**

Information for Poster Presenters

- A poster presentation combines a visual display on a poster board of the highlights of research with a question-and-answer opportunity. You will be assigned a two-hour period during which you should be present at your poster for discussion and questions. In addition, the poster will be available for viewing by attendees during all hours the poster hall is open.

- Presenting authors should stand-by their poster during their assigned stand-by time (authors can also elect to stay longer). Attendees expect authors to be available and willing to engage in dialogue about the work displayed.
- Due to the large volume of posters, OHBM is unable to accommodate requests to move posters to a different session day.
- Any author on the abstract is eligible to present at the meeting.
- Presenters should post a message on their board if they are absent for an extended period of time during assigned sessions.
- **IMPORTANT! Posters not removed by the end of the posted teardown time will be recycled.**
- If extraordinary circumstances require withdrawal of a paper, please notify the OHBM Executive Office at info@humanbrainmapping.org as soon as possible.

Your poster should include (an effective poster is self-contained and self-explanatory):

- The full title, list of authors and affiliations of your submission at the top of your poster
- The poster number
- Letter than is eligible and clear (*attendees may be standing from three (3) to six (6) feet away from the poster, so the lettering should be easily legible from that distance if possible*)
- A balances of figures and texts. Figures should be designed viewing from a distance and use clear, visible graphics and large type. Colors are effective if used sparingly; use dark colors on white or pale backgrounds and light colors on dark backgrounds. Indicate figure sequences with numbers or letters at least one inch high. Each figure or table should have a heading of one or two lines in very large type stating the "take-home" message.

Your poster **should NOT be** a page-by-page printout of your submission or include any patient or test subject identification.

Poster Board Size and Display Information

Poster boards will be vertically (portrait) orientated. The dimensions of the poster boards are 4 ft wide x 8ft tall. Mounting: Posters should be designed and constructed so they can be attached to the poster board with a push pin, which will be found at each poster board or you may bring your own. Additional push pins may be requested at the poster help desk near the hall entrance.

Please refer to image below:

Posters exceeding the above measurements and extending into areas reserved for other posters may be removed.

Poster Printing:

The Vancouver Convention Centre does not have on-site printing. A FedEx office is located minutes from the Fairmount Waterfront Hotel. [Additional Information.](#)

E-Posters

You will receive information closer to the Annual Meeting containing instructions on how to upload an E-Poster. All E-posters will be viewable electronically as well as on the mobile app.

Monday and Tuesday Poster Categories

Brain Stimulation Methods: Deep Brain Stimulation, Direct Electrical/Optogenetic Stimulation, Invasive Stimulation Methods Other, Non-invasive Electrical/tDCS/tACS/tRNS, Non-invasive Magnetic/TMS, Non-Invasive Stimulation Methods Other, Sonic/Ultrasound, TDCS, TMS

Disorders of the Nervous System: Addictions, Anxiety Disorders, Autism, Bipolar Disorder, Depressive Disorders, Medical illness with CNS impact (e.g. chemotherapy, diabetes, hypertension), Obsessive-Compulsive Disorder and Tourette Syndrome, Research Domain Criteria studies (RDoC), Schizophrenia and Psychotic Disorders, Sleep Disorders

Emotion and Motivation: Emotion and Motivation Other, Emotional Learning, Emotional Perception, Reward and Punishment, Sexual Behavior

Imaging Methods: BOLD fMRI, Diffusion MRI, Multi-Modal Imaging

Informatics: Brain Atlases, Databasing and Data Sharing, Informatics Other, Workflows

Modeling and Analysis Methods: Bayesian Modeling, Diffusion MRI Modeling and Analysis, EEG/MEG Modeling and Analysis, Exploratory Modeling and Artifact Removal, Motion Correction and Preprocessing, Multivariate modeling, Other Methods, PET Modeling and Analysis, Segmentation and Parcellation, Task-Independent and Resting-State Analysis, Univariate Modeling

Motor Behavior: Brain Machine Interface, Mirror System, Motor Behavior Other, Motor Planning and Execution, Visuo-Motor Functions

Neuroanatomy: Anatomy and Functional Systems, Cortical Anatomy and Brain Mapping, Cortical Cyto- and Myeloarchitecture, Microcircuitry and Modules, Neuroanatomy Other, Normal Development, Subcortical Structures, White Matter Anatomy, Fiber Pathways and Connectivity, Subcortical Structures

Perception and Attention: Attention: Auditory/Tactile/Motor, Attention: Visual, Chemical Senses: Olfaction, Taste , Consciousness and Awareness, Perception and Attention Other, Perception: Auditory/ Vestibular, Perception: Multisensory and Crossmodal , Perception: Pain and Visceral , Perception: Tactile/Somatosensory, Perception: Visual, Sleep and Wakefulness

Physiology, Metabolism and Neurotransmission: Cerebral Metabolism and Hemodynamics, Neurophysiology of Imaging Signals, Pharmacology and Neurotransmission and Physiology, Metabolism and Neurotransmission Other

Wednesday and Thursday Poster Categories

Disorders of the Nervous System: Alzheimer's Disease and Other Dementias, Disorders of the Nervous System Other, Eating Disorders, Epilepsy, Other Psychiatric Disorders, Parkinson's Disease and Movement Disorders, Stroke, Traumatic Brain Injury

Genetics: Genetic Association Studies, Genetic Modeling and Analysis Methods, Genetics Other, Neurogenetic Syndromes, Transcriptomics

Higher Cognitive Functions: Decision Making, Executive Function, Higher Cognitive Functions Other, Imagery, Music Reasoning and Problem Solving, Space, Time and Number Coding

Imaging Methods: Anatomical MRI, EEG, Imaging Methods Other, Imaging of CLARITY, MEG, MR Spectroscopy, MIRS, Non-BOLD fMRI, PET, Polarized light imaging (PLI)

Language: Language Acquisition, Language Comprehension and Semantics, Language Other, Reading and Writing, Speech Perception, Speech Production

Learning and Memory: Implicit Memory, Learning and Memory Other, Long-Term Memory (Episodic and Semantic), Neural Plasticity and Recovery of Function, Skill Learning, Working Memory

Lifespan Development: Aging, Lifespan Development Other and Normal Brain Development: Fetus to Adolescence

Modeling and Analysis Methods: Classification and Predictive Modeling, fMRI Connectivity and Network Modeling, Image Registration and Computational Anatomy, Methods Development

Social Neuroscience: Self Processes, Social Cognition, Social Interaction and Social Neuroscience Other
