Date:

Dear

I am pleased to invite you to attend the 32nd Annual Meeting of the Organization for Human Brain Mapping (OHBM), which will be held from Sunday, June 14, 2026, through Thursday, June 18, 2026, at the Palais 2 l'Atlantique in Bordeaux, France. OHBM is the primary international organization dedicated to neuroimaging, bringing together approximately 3,000 researchers each year for its scientific educational programs, the presentation of the latest research, and networking within the community.

As a researcher at the host institution (Institut des Maladies Neurodégénératives, UMR 5293, CNRS / Université de Bordeaux) and a member of the OHBM community, I would be delighted to welcome you to this meeting in Bordeaux. Your presence will be a valuable contribution to the scientific exchanges taking place during the congress.

This letter is intended to support your visa application. Please note that neither OHBM nor our laboratory will be providing financial support to cover travel, registration fees, or local expenses related to the meeting. I strongly advise you to apply for your visa at least 12 weeks in advance of your departure to ensure that it is issued in time. For any questions regarding the visa process, please consult <https://france-visas.gouv.fr/en/visa-application-guidelines>.

Please do not hesitate to contact me should you require any further information to facilitate your visa application.

I look forward to welcoming you to Bordeaux.

Sincerely,

Michel Thiebaut de Schotten

The image shows a handwritten signature in black ink, which appears to be 'M. Thiebaut de Schotten'. To the right of the signature is a red rectangular stamp containing the text 'Brain Connectivity Behaviour' in a stylized font.
